

Onboarding Policy

Northstar Digital Services, Inc.
Enterprise Technology Office

Document ID: POL-HR-001 | Version: 1.0 | Effective Date: 2026-01-01 | Classification: Internal

Field	Value
Company	Northstar Digital Services, Inc.
Document Owner	Human Resources and Enterprise Technology Office
Audience	Employees, contractors, managers, IT support, security, and finance teams
Purpose	Sample enterprise content for a Retrieval-Augmented Generation demo knowledge base
Review Cycle	Annual or upon major business, security, compliance, or system change

1. Purpose

This policy defines the standard employee and contractor onboarding process for Northstar Digital Services, Inc.. The goal is to provide a consistent, secure, and auditable onboarding experience from offer acceptance through the first 30 days of work.

2. Scope

- Applies to all full-time employees, part-time employees, interns, temporary workers, and contractors.
- Applies to corporate, remote, hybrid, and field-based workers.
- Covers HR setup, identity creation, equipment provisioning, application access, security training, and manager responsibilities.

3. Roles and Responsibilities

Role	Responsibilities
Hiring Manager	Submit onboarding request, approve access, assign buddy, define first-week goals.
Human Resources	Confirm employment status, collect required documentation, schedule orientation.
IT Service Desk	Provision hardware, email, MFA, collaboration tools, and standard applications.
Information Security	Validate least-privilege access, confirm training completion, monitor exceptions.
New Hire	Complete onboarding tasks, security training, policy acknowledgements, and MFA enrollment.

4. Onboarding Timeline

Timing	Required Activities
T-10 to T-5 business days	HR creates worker record; manager submits access request; IT prepares laptop and account profile.
T-4 to T-1 business days	Identity account created; MFA enrollment link issued; equipment shipped or staged.
Day 1	Orientation, password setup, MFA setup, acceptable use acknowledgement, security awareness assignment.
Days 2-5	Role-specific application access, team onboarding, knowledge base review, project overview.
Days 6-30	Manager check-ins, completion audit, access validation, and removal of unused temporary access.

5. Access Standards

- Access must be role-based and approved by the hiring manager or system owner.
- Administrative access is prohibited unless explicitly approved by Information Security.
- Temporary elevated access must include an expiration date not longer than 30 days.
- Shared accounts are not permitted unless approved by Information Security for a documented operational reason.

6. Required Training and Acknowledgements

- Acceptable Use Policy
- Information Security Awareness Training
- Data Handling and Confidentiality Training
- Remote Work Policy acknowledgement when applicable
- Cloud Cost Policy acknowledgement for engineering, DevOps, data, and product teams

7. Exceptions

Exceptions require written approval from the hiring manager, HR, IT, and Information Security. Exceptions must include a business justification, compensating controls, and an expiration date.

8. Compliance and Audit Evidence

The onboarding ticket, access approvals, equipment assignment, policy acknowledgements, and training completion record must be retained for at least three years or longer if required by contract or regulation.
