Definitions

Revenue is total annual sales recognized for the fiscal year. EBITDA means earnings before interest, taxes, depreciation, and amortization. Free cash flow equals operating cash flow minus capital expenditures. Cloud spend includes infrastructure, managed database, storage, security, and AI platform consumption costs.

Sample Retrieval Questions

What was revenue in 2025? Which year had the lowest net income? How did cloud spend change over the 20-year period? What does free cash flow mean in this document?
